

Epson Expression® 10000XL

EPSON®

Epson Expression 10000XL

The high-performance 2400 dpi, large-format scanner for professional photographers and graphic artists.

The Epson Expression 10000XL offers everything professional photographers and graphic artists require for high-quality, large-volume scanning.

Epson Expression 10000XL

Key features

- Extraordinary image quality with 2400 x 4800 dpi resolution
- Smooth gradations with 48-bit color
- Accommodates reflective media up to 12.2 x 17.2 inch
- Enhanced color with ColorTrue II Imaging
- 3.8 Dmax for precision reproductions
- Quick scans with Hi-Speed USB and FireWire® connectivity
- Batch scanning for increased productivity

Epson Expression 10000XL

Image quality

- High resolution works together with Micro Step Drive™ technology to deliver brilliant clarity and detail.
- 48-bit color captures over 4 trillion colors and 4,096 shades of gray.
- ColorTrue II Imaging combines superior image processing, long-lasting Xenon lamp, and Epson MatrixCCD technology for bold, vibrant scans.
- 3.8 Dmax accurately scans each image, including film and transparencies for remarkable precision, even in shadows.

Epson Expression 10000XL

Powerful performance

- Hi-Speed USB and FireWire connectivity enhances operation for most Windows or Macintosh systems.
- Speeds through an 8.5 x 11 inch color image at 300 dpi in under 23 seconds.
- Batch scanning scans multiple images at one time and saves files to a PC
 - Scans up to forty-eight 35mm negatives, thirty 35mm slides, eight 4 x 5 inch transparencies or six medium-format transparencies
